*The Artist Magazine*, May 2000 named the Frank Covino Oil Painting Workshops one of the top five workshops in the USA. It is a rare opportunity to learn from a true Master Artist.

**Covino has guided over 29,000 students spanning over 50 years of instruction.**

Photographic reference permits a variety of subject matter created in the same classroom, offering a much broader range of art education than you would receive in a workshop where everyone paints from the same model.

**Learn Frank Covino's proven system to produce your own masterpieces like the great masters.** He gives personalized hands on instruction with every student, because the maximum class size is only 15 students. Frank Covino's students are among the highest paid semi-professional artists in the world. Covino's web. [www.portrait-art.com](http://www.portrait-art.com)
